FOUR DECADES CREATING UNIQUE SPACES

COMMITMENT, SOLVENCY, AND GUARANTEE

This dossier aims to summarize over 35 years of experience of the construction company B.SOLÍS, founded in 1987 and built upon three fundamental pillars: commitment, solvency, and guarantee.

B.SOLÍS stands out as the leading construction company on the Costa del Sol, having delivered over 25,000 residential units. Our business team comprises 220 professionals with an average tenure of 20 years in the company.

The four highlighted areas of work are: single-family residential, multi-family residential, civil infrastructure, and renovation (residential/hotel).

Our mission is to execute construction projects, offering personalized technical advice from the project study phase to completion, always meeting agreed deadlines.

After three decades of high-demand work, our goal is to retain our current recurring clients, who have become partners throughout the projects, and to find new partners in this business journey seeking a local, solid, transparent, and loyal construction company.

From the Management of B.SOLÍS, we are at your complete disposal, along with our entire team, to provide any additional information you may need and to invite you to visit our headquarters in Marbella or to jointly visit some of the projects executed by us that may be of interest to you.
